Tax Day -- April 15th -- is just around the corner.

While nobody enjoys having to do their taxes, it's important that you know about all of the tax relief available to folks through the Recovery Act, so you don't miss out!

In this tough economy, there are lots of tax breaks available to folks, and there's a very simple tool to help folks find out what tax breaks apply to them.

The White House has developed this simple online tool -- only 8 simple questions -- so you can find out if any of the Recovery Act tax cuts apply to you. Some folks could be eligible for thousands of dollars of tax savings and not even know it.

To take the quiz and find out what tax credits apply to you, please click **here** , or visit www.whitehouse.gov.

As always, if you have any questions, you can contact Congressman Barrow's office toll free at 1-866-890-6236.
